CONFIDENTIAL

\* Fluctuations in strength at some stations, or in some areas may be the result of not having received all of the reports from those stations or areas at the time this summary is published. Admission rates for "All Causes" and for "Disease Only" are based on cases admitted from command whereas the rates for communicable diseases will include, for each station, cases received by informal transfer since in these cases no report of communicable disease is made by the transferring organization.

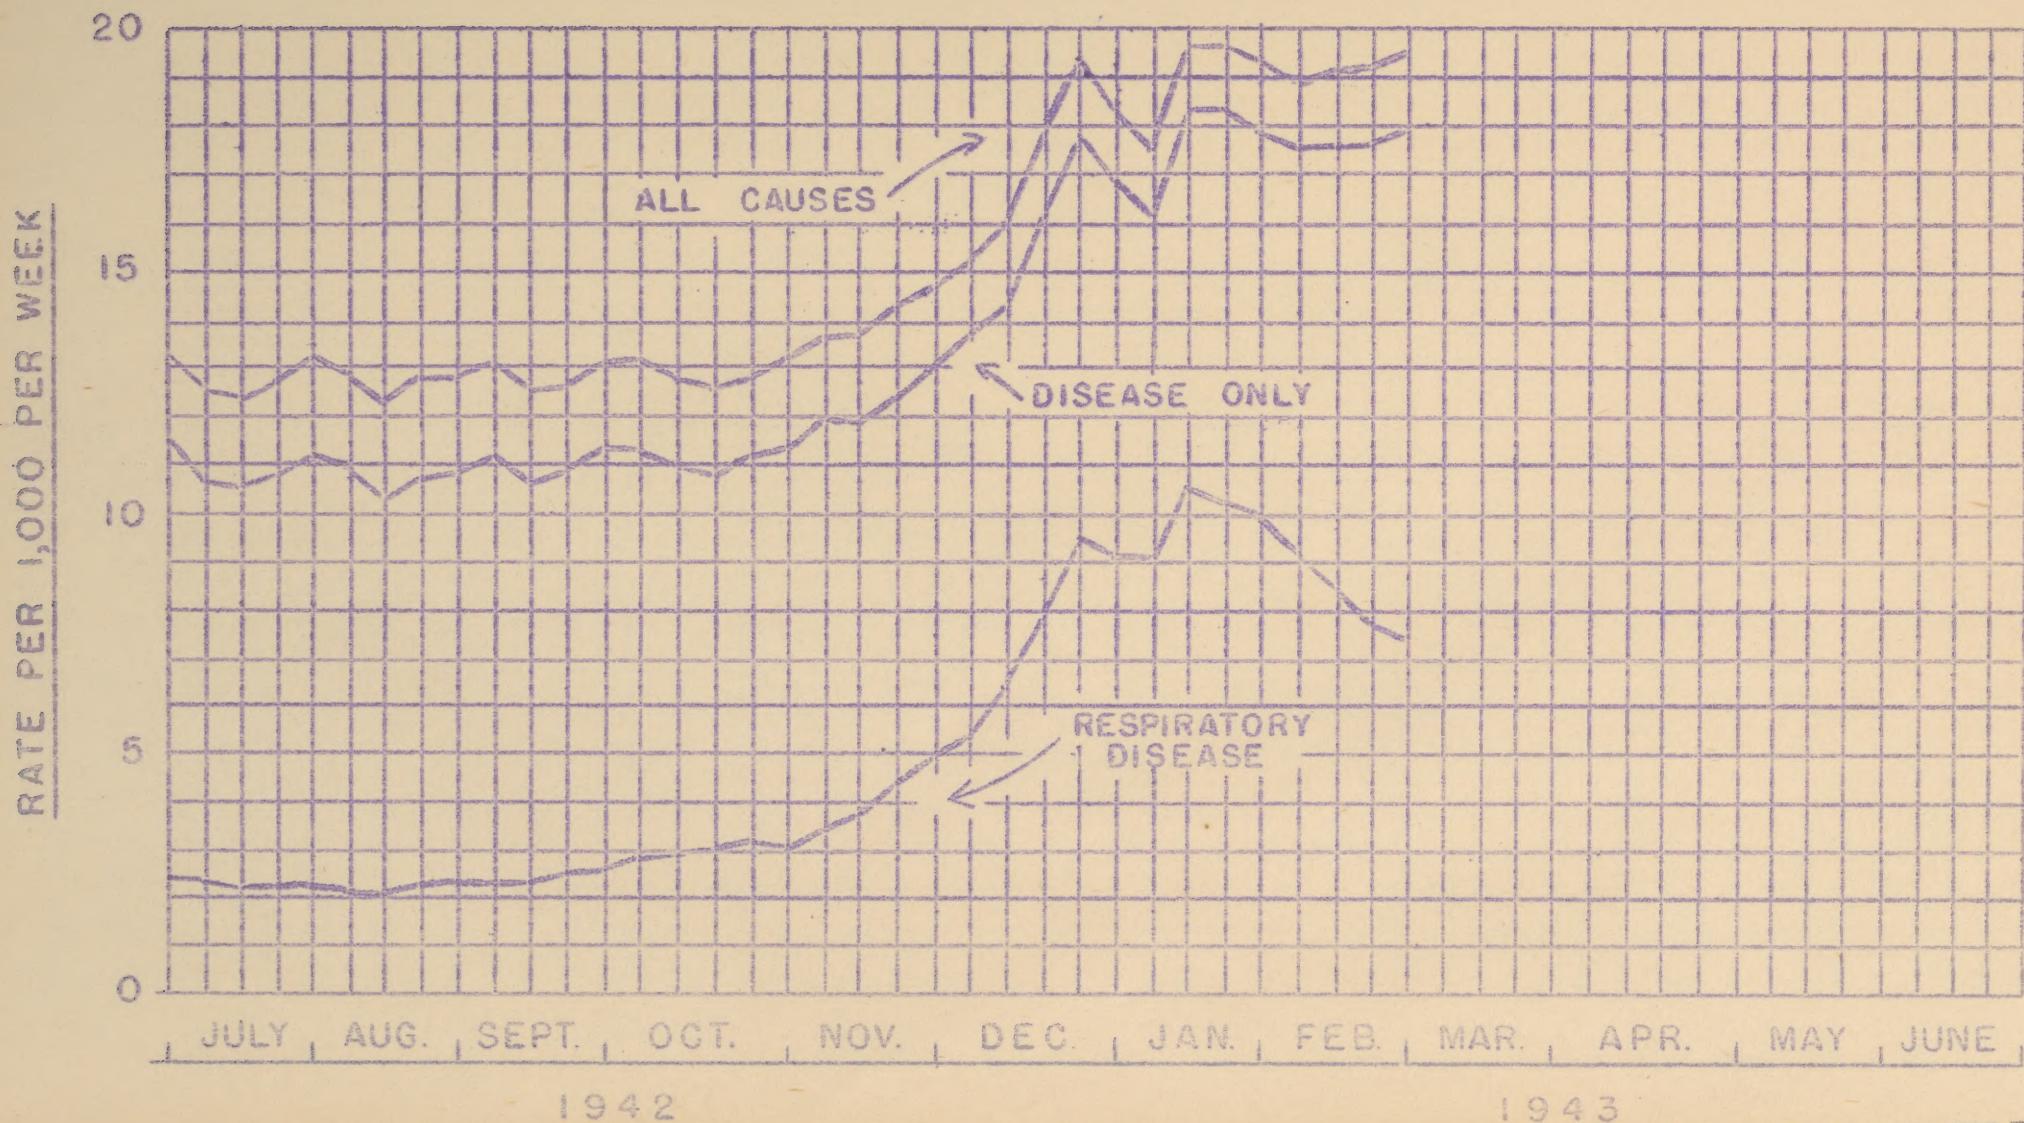

\*\*Only some stations included in this area show FWT
